

## COVID-19 ALERT

To all members:

On December 31, 2021, we were notified that one of our BACU employees, who worked from our Jefferson branch on December 29 as well as our Provencher branch (from 2:30PM to 3:30PM on that same day), tested positive for COVID-19. We are following Manitoba Health guidelines and protocols. The employee's last day at work was Wednesday December 29th. They are now isolating during their recovery. Our thoughts and prayers are with this individual as we wish them a speedy recovery.

The safety of our members and employees remains of utmost importance to us. We encourage members to use online and mobile banking for their day-to-day banking needs. Given our increased safety precautions, including the use of plexiglass shields, increased cleaning measures, mandatory use of masks for members and employees, and physical distancing requirements, we believe there is minimal risk to members and employees at this time.

If you are concerned about possible exposure during a visit to the Jefferson or Provencher branch, please contact Health Links (204.788.8200 or 1.800.315.9257) and follow their recommendations. Should you experience any symptoms of COVID-19, please contact Health Links and follow their recommendations.

We will continue to monitor this situation and provide necessary updates.

Please stay safe.
